Virus restrictions fuel anti-government 'boogaloo' movement

By MICHAEL KUNZELMAN

Associated Press

SILVER SPRING, Md. (AP) — They carry high-powered rifles and wear tactical gear, but their Hawaiian shirts and leis are what stand out in the crowds that have formed at state capital buildings to protest COVID-19 lockdown orders. The signature look for the “boogaloo” anti-government movement is designed to get attention.

The group, which uses an '80s movie sequel as a code word for a second civil war, is among the extremists using the armed protests against state-at-home orders as a platform. Like other movements that once largely inhabited corners of the internet, it has seized on the social unrest and economic calamity caused by the pandemic to publicize its violent messages.

In April, armed demonstrators passed out “Liberty or Boogaloo” fliers at a statehouse protest in Concord, New Hampshire. A leader of the Three Percenters militia movement who organized a rally in Olympia, Washington, last month encouraged rally participants to wear Hawaiian shirts, according to the Anti-Defamation League.

In this May 2, 2020, file photo, people, including those with the boogaloo movement, demonstrate against business closures due to concern about COVID-19, at the State House in Concord, N.H.

claracionnan y no exclusivamente esun di fin di luna pa medio di nan portal digital cu ta accesibel via nan website: www.impuesto.aw, caminda tin un formulario digital. E cliente por yen'e y nan ta anexa un scan of potret di nan eindheffing.

Nan ta realistico cu no ta tur persona ta prefera di uza e sistema digital, pero e ta haya

cu e ta un cuestion di tempo pa e persona por custombra cune. "Pasobra esaki ta e manera cu nos ta bay di awor nos dilanti...", el a declara na e matutino aki. Esaki ta bay bira parti di e adaptacion di e normal nobo caminda tur e declaracion di impuesto lo wordo entrega den forma digital.

El a bisa cu mester haci un

distincion cu e impuestonan mensual, caminda tin e parti di entregamento di e declaracion y e parti di e pago. Nan sistema Bo Impuesto ta permiti entregamento di e declaracion. Pero nan mester registra prome via nan website. Pero pa loke ta trata e pago, DIA a pidi nan clientenan pa hacie bao e sistema online di nan banco. Ya cu nan sistema digital online no ta permiti pago.

Bo Impuesto ta nan plataforma oficial cu ta den operacion caba. Mas tanto e comerciantenan ta haci mas uzo di dje pa entrega nan declaracion di tur luna, no mas tarda cu dia 15.

Actualmente alrededor di 4 mil comerciante ta haci uzo caba di e portal digital aki. Pero ainda tin hopi mas cu mester haya acceso, pero nan mester registra prome. Tanten pa esnan cu no tin acceso na nan porta Bo Impuesto, nan tin otro link riba nan website, caminda nan por entrega nan eindheffing den forma digital.

ter in place y e habrimiento di e prome fase a haci cu comunidad a cuminsa move hopi mas. "Mas eigenlijk cu a premira esaki," el a declara. Esaki ta

refleha cu comunidad ta sintiendo hopi safe afo.

Nan por a tuma nota cu den oranan di anochi, specialmente prome cu 10'or, tin

hopi accidente di auto tumando luga. Personanan cu ta keda te anochi laat ariba caya, y despues nan ta core duro pa yega na nan cas prome cu toque de queda

(TDQ) pa nan no haya un boet dura TDQ.

El a haci un apelacion na e personanan cu ta procede di e manera aki. Mirando e situacion cu nos ta pasando aden, "no ta prudente pa nos bay ocupa nos camanan di ICU cu victimanan di accidente di trafico," el a bisa.

Aruba ta preparando pa e siguiente fasenan cu ta na caminda, y nan ta premira cu eventualmente e casonan lo por aumenta cu e introduccion di cada fase di flexibilisacion di e shalter in place. Esaki tabata un motibo cu a percura pa aumenta e capacidad di ICU.

Un bes mas el a haci un suplica na comunidad pa sigui comporta nos mes, y pa nos mantene nos mes na tur e medidanan di precaucion. "Pasobra ta depende di nos comportacion si e siguiente fase ta bay habri uno pa uno," segun PR di DVG.

Den temporada di COVID-19

Wit Gele Kruis ta sigui brinda ayudo pa mamanan hoben

ORANJESTAD - Durante un entrevista, Monique Giel, Verpleegkundige/Tienermoederconsulente di Wit Gele Kruis a brinda informacion pa loke ta trata e temporada di COVID-19 y con nan ta deal y trata e mamanan hoben.

Giel a menciona cu na e momentonan aki WGK ta trahando cu e mamanan hoben aki. Mirando cu pa via di e medida di shelter in place no por haci e bishita pa nan, WGK ta monitor sigui nan caso y evalua cua ta e caso di

algun di nan cu tin e necesidad mas grandi.

Di esaki, el a bisa cu tur di nan tin necesidad, pero algun di nan ta mas vulnerabel, ta evalua esaki a base di e yamadan cu ta haci. El a sigura cu e ta haci entre 4 pa 5 yamada, pa motibo cu cada un di nan ta dura di un ora pa ora y mey, pa asina nan por conta con nan ta pasando e situacion, kico ta nan problemanan y kico WGK por yuda riba e problema.

Asina mes, Giel a relata cu e situacion aki di COVID-19 tin un banda bon, pero tambe

tin un banda malo. E parti cu e mamanan ta experiencia, hopi di nan ta cu nan a haya miedo pa sali pa via di virus, pero otronan no ta compromete e periodo aki pa loke nan ta cay manera un stress, debi cu nan no por sali.

Esaki ta e grupo cu ta vulnerabel, unda cu nan ta haya cu algun di nan por sali y por bay na unda nan kier. Pero na e momentonan aki nan no por haci esey. Den casonan aki, Giel a bisa cu mester splica nan kico ta pasa. Otro di e parti cu mas ta afecta nan ta e parti financiero, ya cu ta trata di muchanan cu despues di scol tin cu bay traha pa asina nan por tin algun cen pa cumpra e lechi cu pampers.

Tambe nan ta haya e situacion na unda muchanan ta bisa cu door cu nan no ta bin na remarca pa bijstand, pa via cu nan ta menor di edad, nan no por traha y ta depende di nan mayornan. Algun mayor aworaki no tin trabou pa via di COVID-19 y e situacion

ta bira mas dificil. Esaki ta e parti cu WGK tin cu atende nan den parti financiero y duna apoyo pa nan.

Otro di e topico cu a bin dilanti ta e parti cu hopi hende ta biba den mesun cas, un familia grandi di wela, welo, omo, tanta, etc, loke ta haci cu na e momentonan aki tur di nan ta na cas y pa cosnan chikito ta presenta algun conflicto grandi, cu hopi biaha ta afecta e mama hoben y su yiu.

Di esaki, Giel a menciona cu ta importante pa trece solucionnan hunto como familia y cu e situacion aki tambe a presta pa trece cu e relacion di algun familiarnan a drecha y esey ta algo positivo.

E grupo di mama hoben cu nan ta mancha ta entre 12 pa 19 aña, Giel a comenta cu na e momentonan aki nan ta hayando yamada di muchanan cu ta na estado y cu nan tin cu sigui traha cu nan pa duna e guia y apoyo cu nan mester.

ORANJESTAD - Henter mundo a wordo paralisa door di e pandemia COVID-19, loke ta causando un regreso timido pa e normal nobo, cu den gran parti ta depende di loke lo por sucede na scolnan, un tema hopi delicado.

Mester mantene scolnan cera, loke ta dificulta e regreso na trabou di e mayornan? Of habri nan aunke algun di e mayornan tin miedo di no haya garantia sanitario? Esunnan cu ta di acuerdo pa e habrimento di scol ta conta cu estudionan den cual e muchanan ta esunnan cu menor chens di contagio. Pero sin logra un convencimiento, ta teme cu actividadnan economico lo por prevalece riba e salud di muchanan. Ora e pandemia tabata golpia un 87% di studiantenan rond di mundo (desde crèche te universidad), nan a keda sin por asisti na scoln. Esey a afecta mas di 1.500 miyon hoben y muchanan di 195 pais.

E cifra aki a baha na 1.268 miyon dia 7 di mei pasa. “E decision di haya sa ki ora y con scolnan lo habri ta hopi leu di ta senciyo”, asina a admiti e director general di Unesco, Audrey Azoulay.

“P’esey mester tin un prioridad” pasobra “tin hopi estudiante cu ta keda atras pa loke ta trata aprendisahe”, Azoulay a agrega. Desde comienso, Unesco ta preocupa pa e perturbacion masivo cu educacion ta sufri, y ta teme consecucionan pa e muchanan menos favorecido, cu un ambiente familiar no stabiel y sin medio tecnologico cu ta permiti un enseñansa na distancia.

Esaki tin varios riesgo cu por trece como consecucionan na largo plaso, aumento di desigualdad, violencia, desempleo y matrimonionan prematuro.

Incluso den sociedadnan cu hopi recurso, e ceramento di scolnan tabatin consecucionan social, na momento cu e muchanan cu menos recurso a stop di haya su desayuno. Esaki a wordo evita na Finlandia na unda e establecimentonan cera a sigui distribui e cuminda di e studiantenan.

Na China, na unda e pandemia a cuminsa Universidad di Harvard a haci un studio cu a publica na revista Pediatrics y nan ta splica con e pandemia a afecta e muchanan.

E estudio a examina e informacion di 2.143 muchanan infecta di COVID-19 cu a wordo reporta na e centro nan di enfermedad di China desde 16 di januari te 8 di februari di aña aki, un cantidad di nan a confirma pa via di un prueba di laboratorio pa coronavirus y otro parti a wordo diagnostica cu otro pruebanan como radiografia. E miho noticia di e estudio aki tabata cu 90% di e muchanan tabatin un enfermedad ‘asintomatico’ leve of modera, a diferencia di grave of critico. Esey ta nifica cu incluso si e

muchanan tabata malo, cu keintura y tosamento, 90% di nan no tabatin problema pa hala rosea, mester di oxigeno of mester drenta den unidad di cuidado intensivo di un hospital. Mientras cu 4,4% a notifica como asintomatico, pa motibo cu un parti chikito so a somete pa un prueba di laboratorio y ta hopi probabel cu e number real di muchanan infecta tabata mayor, un so a muri.

Sinembargo, un parti di e estudio ta e parti mas importante cu hende mester pone

atencion: muchanan mas chikito ta core un riesgo mas grandi di haya problema, entre nan muchanan menor di un aña, 10,6% tabatin malesa grave.

Den e luganan di muchanan entre 1 pa 5 aña, e number tabata sigui hopi halto cu un 7,3%, esun di 6 pa 10 aña a disminui pa 4,1% pa esun mas grandi di 11 pa 15 aña tabata di 3%.

No ta algo straño cu muchanan mas chikito, specialmente babynan ta mas vulnerabel, den e mayoria di epidemia como grip, ta e hobennan y hende grandi esun cu ta core e risico mas grandi.

Si gobierno ta considera e habrimento di scol por tuma luga pronto, ta importante pa mayornan tene na cuenta cu ken nan ta bay laga nan yiunan, limita e personanan cu tin contacto cu nan, asina como practica distanciamiento social y cu personanan mester mantene aleha di muchanan si ta sinti malo.

Den medida cu por ta posibel, percura mantene muchanan mas chikito den cas y si mayornan ta Sali cu nan mantene su cosnan limpi y limita e contacto cu otro personanan.

Tension na Bolivia a aumenta cu represion de un protesta contra cuarentena

SANTA CRUZ (ElPais) - Pa prome biaha desde comienzo di cuarentena na Bolivia, forza policial a haci uso di gas lagrimogeno pa contene un blokeo di cayanan na e Zona Sur

di Cochabamba.

Un enfrentamento di varios ora a wordo produci dialuna ultimo entre polisnan y bisiñanan cu tabata protesta contra e extension di e 'cuar-

entena estricto' te 31 di mei. E dia despues, e manifestantenan a bolbe riba caya pa motibo cu nan 'no tin nada pa come', nan reserva di placa y alimento a caba y hopi di nan no a ricibi ayudo di gobierno.

Arturo Murillo, minister di Gobierno encarga di e politica di seguridad y homber fuerte di gabinete interino di Jeanine Añez, a skirbi un carta pa e ex-presidente Evo Morales y a acus'e di 'crea violencia politico na Bolivia'. E carta tambe ta bisa cu pa Morales y e candidato di Movimiento al Socialismo (MAS) Luis Arce, pa e eleccionnan cu a wordo suspendi

pa e crisis, 'e prioridadnan no ta mas di salud y economia ni famianan', sino 'recupera e poder y defende e negoshi di coca na Chapare'. E minister ta skirbi cu nan lo tin cu warda pa cu e lucha contra e pandemia caba y lo tin eleccionnan. Murillo ta pretende di manda e carta aki pa Morales a traves di Arce. Den MAS su iniciativa a wordo califica como 'un show' pa distrae e atencion publico di e problemanan social y e continuacion 'di e politica gubernamental di criminalisacion' di e partido aki y di e protesta popular.

Dia 7 di mei, Gobierno a

aproba un decreto cu ta adverti cu e personanan cu no ta cumpli cu cuarentena, 'of publica informacion di cu-alkier tipo, di forma escrito, impreso, artistico of cu otro procedemento, cu ta pone den riesgo of lo afecta e salud publico, generando incertidumbre pa e poblacion, lo bay haya denuncia pa e comision di delito regarda denCodigo Penal'. Pa e decreto aki, Evo Morales lo por ta inclui den otro proceso hudicial pa stimula e no cumplimiento di e cuarentena, ademas di otro delito pa cual e tin proceso hudicial caba.

Brasil: Bolsonaro, bou menasa pa investigacion di Supremo y gestion di coronavirus

BRASILIA (ElPais) - Na medida cu na Brasil ta aumenta e mortonan y contagio pa coronavirus, te cu a bira e pais na unda e pandemia ta avansa mas lihe, e ciudadanonan ta perde pasenshi cu nan presidente. Diamars ultimo e cantidad di morto a yega 881 fayecido den un dia so.

Un Jair Bolsonaro debil ta persisti den e pulso di e gobernadornan riba con tin cu enfrenta e pandemia, y e ta defende su mes cu atakenan mientras e investigacion di Tribunal Supremo riba su supuesto injerencia den departamento di polis pa pro-

tege su famia ta avansa. E tres minister mas cerca di dje, tres general, a wordo interroga na Brasilia oranan despues cu un encuesta a pone su popularidad hopi abou.

Supremo ta investiga Bolsonaro despues cu Sergio Moro a acus'e durante su discurso di retiro na Ministerio di Husticia. Moro, e hues cu ta simbolisa e lucha contra corrupcion y cu tabata e minister mas popular, a sigura cu e presidente a presion'e pa cambia e director di Polis Federal cu obhetivo di protege su yiuwan relaciona den varios caso. E investigacionnan ta avansa hopi lihe. Moro a declara caba. Y dia-

mars ultimo tabata e turno di tres minister cu ta traha cu e presidente na Palacio di Planalto.

Otro piesa clave ta e grabacion di Consejo di Minister cu a tuma luga dos dia prome cu e retiro di Moro. Dos persona cu a wak e video ta sigura cu Bolsonaro a bisa den e reunion cu su famia tabata persigui pa Polis Federal. Aunke e video no ta publico, e presidente a nenga di bisa e palabranan "Polis Federal". Di loke a leak, tabata trata di un reunion explosivo cu insultonan varios gobernador y den cual minister di Educacion a pidi prizon pa e huesnan di Supremo.

E fayecidonan na Brasil ta suma 12.400 y e contagio ta supera 177.000 segun e cuenta oficial. Pero specialistanan ta adverti cu e cifranan aki

ta hopi abou di e cifra real. Tambe a haya sa cu tin 2.000 morto sospechoso y cu esunnan hospitalisa pa sindrome respiratorio ta supera cuatro biaha e casonan di covid-19.

Nicaragua: Gobierno ta ordena 'entieronan expres' lantando duda riba e cifra di morto pa covid-19

MANAGUA (ElPais) - Expertonan a bati alarma desde varios siman pasa pa via di e aparicion di casonan di neumonia na Nica-

ragua, e conclusion ta cu Gobierno di Daniel Ortega 'ta sconde e covid-19', ya cu Ministerio di Salud no ta realisa pruebanan masivo cu por determina lo contrario.

Varios entieronan expres na ciudadnan como Managua, Chinandega, Masaya y Boaco. E imagennan a altera e ciudadanonan nicaragüense, mientras cu e Gobierno sandinista ta warda silencio. E prome dama y casa di Ortega, Rosario Murillo a yama e specialistanan critico di e gestion gubernamental como

"celebronan deforma" cu ta busca "calumnia y difama".

E videonan di e entieronan den oranan di anochi cu a wordo publica na rednan social, ta algo cu a coincidi cu loke epidemiologonan ta cataloga como "aumento lihe di e curva" di coronavirus, den un pais cu e autoridadnan no a tuma e medidanan di proteccion adecua pa detene e epidemia, den cambio nan ta minimalisa e pandemia.

Loke a causa mas rabia pa e famianan, ta cu e mayoria di e casonan e autoridadnan

sanitario a notifica e fayecimento ora e trahadonan cu ta traha como sepulturero di Minsa a dera nan ser keri. Na ciudad di Chinandega, na unda tambe ta registra hopi casonan di covid-19, e practica aki a wordo rechasa pa e famianan afecta.

Minsa a publica un comunicado diamars ultimo den cual pa prome biaha nan a admiti e aumento di casonan positivo, pa un total di 25 persona contagia na Nicaragua, pero nan no a reconoce e mortonan evidenciada den 'entieronan expres'.

E ex-ministernan di Salud di Nicaragua e siman aki a dirigi un carta pa World Health Organization (WHO), na unda nan ta señala cu Gobierno "ta manipula informacion sanitario pa nenga of disminui artificialmente e number di casonan y di morto pa causa di e pandemia. Te e fecha, tin un cantidad considerable di profesional di salud contagia, loke ta debilita e condicionnan pa atende esunnan cu mester di dje, y tin personal cu a wordo retira pa sospecha cu nan a informa cu transparencia e famianan".

Republica Dominicana: Cantidad di caso Covid-19 aumentando drasticamente

(DiarioLibre) – E cantidad di caso di coronavirus na Republica Dominicana ta sigui aumenta cada dia, y den ultimo 24ora, segun e informe oficial di 13 di mei a registra 296 caso nobo y 7 fayecimento, segun eboletin # 55 emiti pa Ministerio di Salud Publico.

E total di contagio registra a subi te na 11.196 persona, mientras cu tin 409 victima mortal na nivel nacional, pa un letalidad cu ta den descenso y ta actualmente na 3.65%.

E informe epidemiologico ta establece ademas cu 3.339 pacient a keda declara recupera.

Encuanto e casonan sospechoso, e ministerio a informa cu a descarta 35.921 caso, mediante test PCR, di un total di 47.117 test cu a realisa desde 1 di maart, dia cu a descubri e promer caso.

Di e estadisticanan oficial por deduci cu e cantidad di caso ta den un aumento considerable. Un comparacion entre e siman di 26 di april te cu 02 di mei, y e siman entre 06 te 13

Venezuela: Iran no por drecha e refinerianan

(LaPatilla/ABC) - Iran no ta capaz di resolve e gran problema di abastecimento di gasolin cu Venezuela tin. Si Rusia no a logra, cu tin mas experiencia den e sector petrolero Venezolano, mucho menos e intento di Iran lo logra, a pesar di e tradicion di refineria na nan pais. Pasobra e refinerianan Venezolano no por drenta den operacion atrobe, ta e trasfondo di e salida di Rosneft, di Rusia, y tambe e circunstancia cu Iran ta desea pago na oro ta indicacion cu nan no ta buscando un colaboracion duradero.

E dificultadnan di produccion di combustible na Venezuela ta haya alivio, ironicamente, pa continuacion di e actividadnan na e pais di e empresa Mericano Chevron y esen Spaño Repsol, cu ta paga e regimen cu reserva monetario internacional y cu producto refina, respectivamente. Mientras e operacionnan ey ta sigui, Washington no por bisa cu nan a cera

e cerco completamente pa Nicolas Maduro.

E paro di actividad na fin di januari den e ultimo dos refinerianan operativo na Venezuela, Amuay y Cardon, ambos parti di e Compleho di Refinacion Paraguana, den su tempo e segundo refineria di mas capacidad refineria na mundo, a pone suministro di gasolin pa uso interno di e pais den problema grandi. Filanan largo na pomp di gasolin mientras e cuatro refinerianan tabata inactivo caba (El Palito, Puerto la Cruz, Bajo Grande y San Roque).

Te na januari trahadornan Ruso tabata tratando ainda pa reactiva parti di e refineria di Amuay y tene esaki operativo. Pero ora Rosneft a dicide, bao presion Mericano, pa bandona tur actividad na Venezuela, y ni sikiera kier a keda den produccion pa mercado local, pasobra tal inversion no ta uno cu perspectiva beneficoso.

Atan Lee:

‘Un municipio (Gemeente) di Hulanda no ta miho pa Aruba?’

ORANJESTAD - Den e dianan aki mi tabata tin combersacion cu hopi Arubianonan prominente ariba diferente terenonan y hopi di nan ta pensa mescos cu mi, esta cambia e Status Aparte pa un Municipio di Hulanda lo cumbini nos pais.

Tur esnan cu a hiba e lucha di Status Aparte o separacion for di Antiyanan Hulandes, cu na final tabata un logro di Betico Croes dfm, lo ta di acuerdo cu Aruba lo bira un municipio di Hulanda mescos cu ta e caso di Bonaire. Nos a lucha pa ta para ariba nos propio pianan, separa di Corsou cu tabata tin nos domina. E pueblo di Bonaire a haci e miho escogencia, awe den e crisis nan no mester cay na rudia pa Hulanda yuda nan, pero nan ta ser considera parti di Hulanda, ricibiendo tur e beneficiacion cu Hulanda ta ofrece su habitantenan, den e momento di crisis cu mundo ta pasando aden.

Si bo analisa bon cu Aruba for di hopi añanan ta bou control di Hulanda, esta e parti financiero cu ta duna un pais su derecho igual den reino, ya no ta existi mas, pero ta ser

controla severamente door di madre patria, esta Hulanda. Awe den e crisis ta Hulanda ta esun cu ta awor ta yudando nos pais, tanto financieramente, cu vigilancia di nos costanan, cu profesionalnan den cuidio etc. Ariba tur cos Hulanda ta proteha nos contra paisnan den nos cercania cu ta cla pa declara nos parti si nan patria.

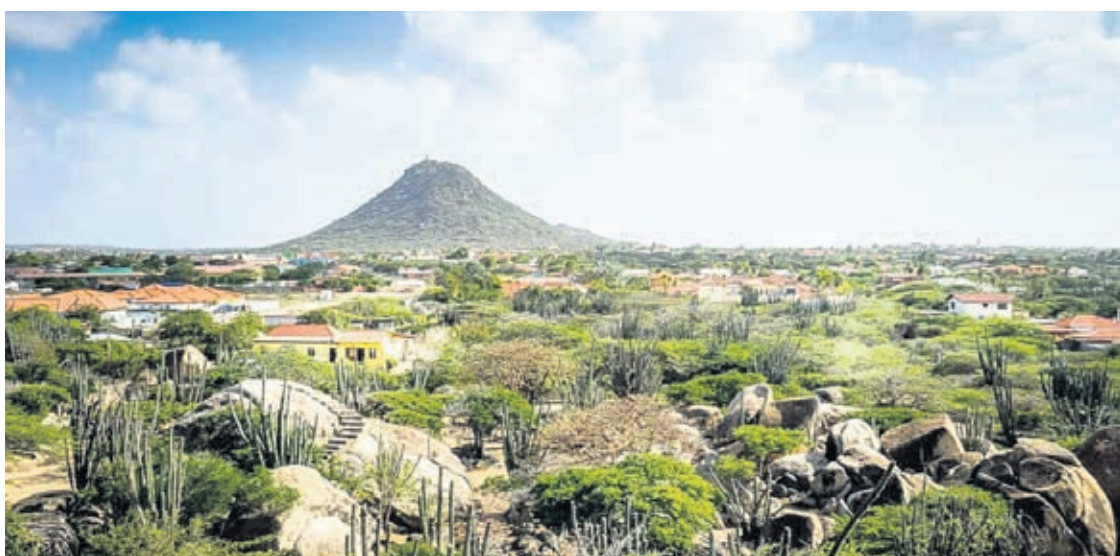

Kico ta nifica un Municipio(Gemeente)?

Aruba lo bay cay directamente bou un di e provincianan di Hulanda.

Aruba lo keda cu su himno y bandera.

Aruba lo ser controla door di Hulanda cu deroche di placa lo no sigui tuma luga door di politiconan haragan pa poder y ariba tur cos enrikece nan mes. Overbruggingstoelage cobra pa tur politiconan cu tabata den Staten o den Gobierno, despues di Status Aparte, sumanan miyonario, tambe areglo di pensioen halitismo. Hopi ta e politiconan cu a gana Lotto miyonario.

Nos lo haya un burgermeester y diputadonan.

Nos tin derecho pa scoge nos propio Gobernantenan y ariba dje nos por vota pa eligi miembronan di Eerste y Tweede kamer di Hulanda. Nos ta keda cu nos Banco Central y nos propio moneda, ariba esaki nada lo cambia. Kico mas nos ta desea, un isla asina chikito, pero cu nos ricibi e mes un beneficiacion cu cualkier Hulandes Europeo tin derecho ariba dje.

Lo tarda, pero asina cu nan descubri un medicina pa cura e virus, Aruba lo bira atrobe e atraccion number uno den Caribe, manera el a ser considera den e ultimo decadanan.

Nos pais, lo bira un isla, pero cu garantianan grandi di por para ariba nos pia ariba un base solido, cu beneficiacion grandi pa comercio.

Nos por traha ariba diversificacion di nos economia ariba diferente terenonan. Hulandesnan miyonario lo bin inverti den nos pais, no awor cu mayoria di proyectonan ta den man di Latinonan. Tur e hotelnan cu a ser construi y cu ta den construccion, mescos cu condominionan ta den man di Latinonan cu a inverti den nan. Esaki lo cambia pa Hulandesnan/ Europeonan Miyonario.

Ta tempo pa hobennan bon studia, bon prepara, pensa ariba e posibilidad aki, pa asina garantisar nos futuro generacion un futuro prospero, sin un cantidad di fabornan politico, probecho personal, corrupcion y traha pa nan propio saco enbez pa interes general di nos pais.

Esnan interesa por tuma contacto cu mi na e-mail: atanleesr@gmail.com. Mester bin cu coleccion di firma pa nos exige un referendum. Conhunto nos lo logra y garantisar nos pais un futuro prospero.

Robert Arends:

‘SVb , Pueblo merece informacion’

ORANJESTAD - Como e instancia encarga cu ehe-

FASE y Subsidio di trabou , cual proyectonan finalmente ta pueblo pagado

di belasting mester paga , SVB ta moralmente obliga di duna informacion

detaya na pueblo.

na y cuanto a bay pa negoshi den cada un di e proyectonan?

Pakico? Pasobra ya den prensa a filtra conclusion cu “ ilegalidad” ta tumando luga den e tereno cu ta cay bao responsabilidad di SVB.

Pueblo no ta interesa ni den number di hende ni den number di negoshi. Loke si pueblo ke sa ta : den cua sector di economia/ proyectonan a constata ilegalidad y kico SVB ta haci of ta bay haci pa combati ilegalidad cu ta costa pagadonan di belasting extra placa.

For di datonan , SVB no por duna pueblo cifranan manera :

- cuanto persona y negoshi tin registra na SVB y cuanto di nan a bin na remarca pa e ayudo?
- cuanto persona y negoshi a resulta for di e peticionnan cu nan no tabata registra na SVB ?
- cuanto placa a bay pa perso-

En general SVB por duna pueblo ,opinion di SVB , si e presunto “ilegalidad” ta hopi , normal o aceptabel en comparacion cu e cantidad di inscripcionnan (especifica den persona y negoshi) na SVB ?

E experiencia cu e proyectonan a duna SVB motibo pa bin cu cambio den ley o den forma di traha di SVB?

Ta simplemente e falta di informacion a hiba na e articulo aki , cargando e speransa cu tur departamento di Gobierno por cuminsa informa pueblo mas detaya di nan trabao y special cu cifra. E forma con e Departamento di Salud a informa pueblo den e caso di e virus ta di aplaudi y merece wordo tuma como chempel. Ban pa e normal nobo di informa pueblo, sin miedo!

fuerzo di hopi persona den e lucha contra e pandemia. Ta tuma e medidanan den consulta cu e organisacionnan

involucra, pa asina e bishitanan di trabou por tuma luga na un manera sigur.

Despues di entrega di e computernan ta sigui e siguiente proyecto, cu ta un pakete di cuminda.

Area di Barcadera ta birando un dump nobo

ORANJESTAD - Tin un frase cu ta hopi conoci den comuni- dad cu ta bisa ‘Un Aruba sin su- shi ta un Aruba dushi’ pero esey no ta sigui na vigor mas.

Ekipo di Bon Dia Aruba a haya imagennan di un luga situa na Bar- cadera, na unda den ultimo lunanan cierto personanan a dedica di benta sushi afo. Varios luna pasa e mesun luga tabata yen di medicinan ca- duca y aworaki comunidad ta sigui bentando cuanto cos nan no ta usa mas den nan cas.

Ademas, tambe a haya bestianan morto, corchon y cashi bieu te cu hasta paña; mientrfas cu precisa- mente na e momentonan aki por existi personanan cu situacion vul- nerabel cu por tin mester di nan. Asina mes e situacion di e luga aki, cu cada dia ta birando un dump mas ta aumenta e preocupacion cu esaki por trece, entre nan mas malesa.

Di mesun manera, no ta com- prendibel cu ta existi companianan cu ta encarga di recoge desperdi- cionan y sushi den cas, asina mes ta existi Parkietenbos na unda nan por hiba nan desechonan.

E yamado ta pa comunidad cuminsa bira mas consciente tocante preser- vacion di areanan cu aunke por ta bandona no ta un motibo pa tira tur sushi of bestia morto cu ta aumenta e nivel di contaminacion.

Parlamentario Robert Candelaria (AVP):

‘Retonan grandi por ta fuente di inspiracion pa cambionan grandi’

ORANJESTAD - Hopi ta premira cu e angustianan despues di Covid, manera desempleo y problemanan social cu lo bira problemanan hudicial, lo ta mas grandi cu hopi ta pensa. E momento ta awor pa un realisacion profundo di e embergadura di e problema y delinea un vision cu tin e forsa pa atende cu e profundidad y magnitud

di e reto nos dilanti.

Awor no tin tempo pa politiconan na mando keda mira den spiel patras pa tira acusacionnan di pasado pa asina kita bista di nan incapacidad. Awor mester di bon gobernacion y liderazgo pa nos pais den e situacion penoso actual cu nos ta aden. E situacion ta demasiado grave y urgente pa laga esaki continua.

E modelo aki di culpa otro pa tur cos crea caba tres aña di stagnacion na Aruba. Laga nos tuma e oportunidad aki pa purba e caminda nobo nos dilanti pa realmente cera cabes y traha hunto pa e Aruba cu tanto nos tur ta bisa cu nos ta stima.

Rond mundo gobernantenan ta preparando pa flexibilisa medidanan cu a wordo tuma como consecuencia di Covid-19. Aruba no ta un excepcion. Pero tuma e decision pa habri scolnan, nos frontera, hotelnan y barberianan etc. so, lo nunca hiba nos na un estilo di bida manera prome cu Covid. Expertonan local y internacional ta mustRANDO nos cu un cantidad sin precedente di hende a perde trabou y no por biba mas na e nivel prome cu e virus.

Expertonan ta sugeri decisionnan drastico pa sobrevivi y ta premira scenarionan horendo despues di Covid. Mundialmente hopi a perde sernan keri y otro nan a sufri hopi emocionalmente y mentalmente y no sa con pa enfrenta bida despues di Covid. Pero danki na Dios nos sa cu ta un hecho cu Covid lo

no dura pa semper. Manera e dicho asina popular ta bisa, “this too shall pass”. E pregunta cu ta keda colga den halto e ora ta: y kico awor?

E reto aki y su golpinan ta asina profundo cu comunidad di Aruba mester di un perspectiva den cual e por kere y pone su confiansa. Esaki ta totalmente ausente na e momentonan aki. Nos no ta mira e liderazgo pa guia Aruba awor for di e crisis aki den e gobernacion di nos Pais cu ta asina fragil, label y dividi.

Mientras nos ta mira si pafu di gobierno hopi chempelnan den e temporada aki di hende cu no ta satisfecho cu sinta na banda y observa loke ta pasando, pero a sali y sirbi otro nan boluntariamente.

Pa logra reanuda bida, Aruba awor mester di su lidernan pa lanta para y tuma posicion. Mi no ta papia aki di lidernan politico so. Un lider ta un persona cu den tempo dificil ta mira loke otronan no ta mira y por guia hende na un miho luga. E ta mira oportunidad caminda otronan ta mira derota so.

E lider por ta un maestro di

scol cu ta duna su muchanan speranza. E lider por ta un empresario cu ta mira oportunidad nobo pa lanta su negoshi di nobo, mas fuerte cu prome. E lider por ta tambe un persona den comunidad cu ta yuda guia su hendenan na idea pa empleo nobo of na un sentido di comunitarismo renoba na unda e importancia di e famia, e bario y e iglesia ta wordo poni central atrobe. Lidernan ta esencial pa hiba nos pais den un direccion di speranza na tur nivel den comunidad.

E ta obvio cu na e momentonan aki Pueblo di Aruba no ta hayando e perspectiva cu ta dun’e confianza cu nos lo supera e retonan aki. Nos no ta hayando e tanto dor di falta di capacidad den gobernacion y falta di credibilidad y base di sosten amplio den nos pais pa kere den locual gobernacion ta haciendo.

Sin e vision aki y sin e confianza amplio den pueblo, Aruba lo perde e oportunidad pa sali rapidamente y triunfantemente for di e crisis aki y lo keda stagna den incertidumbre. Pueblo di Aruba merece miho !

Parlamentario Endy Croes (MEP):

‘Arthur Dowers por informa pueblo cuanto su casa a cobra durante gobernacion di AVP’

ORANAJESTAD - Parlamentario Endy Croes a tuma nota cu algun Parlamentario (x ministers) esnan cu a causa e desaster financiero y e Mega Debe na e pais aki a manera spierta. Arthur Dowers ta un di nan kende tabata tin 2 aña sin yega Parlamento pero si tabata cobra tur fin di luna. Nos a reclama hopi den Parlamento alrespecto e comportacion di diferente Parlamentarionan di AVP kendenan no ta presenta na trabou pero mester trece un cambio den Ley y ta bay tin mester 2/3 parti esta 14 voto pa esaki wordo realisa. Lo traha riba dje y presente den un estilo di no work no pay pa asina caba e abusonnan cu e Parlamentarionan di AVP ta cometiendo.

Diripiente Dowers a stofia un bachi biew y a cuminsa profila den prensa:

Parlamentario Endy Croes a tuma nota cu Dowers na un manera arepentino a stofia un bachi y a cuminsa profila su mes den prensa ultimo siman. Desde december momento Parlamento a baha cu recess no a mira Dowers y desde Januari Dowers no ta atendiendo reunion den Parlamento y awor despues di rond 4 luna Dowers a haya sea poco briyo of ta instruccion di Mike Eman. Nos ta na altura tambe cu Dowers no tabata contento desde cu partido AVP a nombra Marlon Sneek como Lider di Fraccion di AVP. Nan mes a basha abou riba otro cu Dowers nunca a acepta esaki. Dowers como number 4 riba lista y Marlon Sneek como number 12 riba lista bira Lider di Fraccion di e partido berde pasando asina su dilanti. Hasta a expresa den gang den Parlamento cu ta danki cu # 1 Mike Eman, # 8 Schwengle y # 9 Visser a nenga nan puesto como Par-

lamentario Marlon Sneek na un manera chiripero via bentana di cushina a logra drenta Parlamento.

Patricia Dowers tambe a strica 300 mil florin:

Dowers kier ple awe mas santo cu papa di Roma. Awe Dowers kier pasa como esun cu tin Aruba na pecho y tin solucionnan pa tur cos. Dowers mester ta sincero cu pueblo y splica pueblo si ta berdad su casa Patricia a cobra 300 mil florin durante cu Dowers tabata minister? Pues Dowers kier acusa tur otro hende pero a lubida cu informacionnan di su mal maneho, corrupcion, faborece famia y amigo tardi of tempran ta yega cerca nos. Mescos Dowers a faborece Thera Group di Patrick Paskel cu contactonan lucrativo pa propaganda su oficina. Alabes casa di Patrick Paskel a lanta un di dos compania PAXI (Public Affairs Communication & Monitoring

NV) pa asina sigui strica bou pretexto di monitor prensa, skirbi artikkel pa Minister of departamentonan cu ta resorta bou Dowers entre otro pa KPA. E companianan aki di amigo di Dowers a ranca na un manera hopi brutal 7 miyon for di nos pagadonan di belasting. Pues nos ta reta Dowers bin dilanti pa splica pueblo con Bo a abusa di Bo

poder e tempo aya. Splica pueblo si Patricia Dowers y Patrick Paskel su companianan no a cobra sumanan astromico bou bo maneho. Esaki ta meramente pa recorda pueblo di algun di e actonan bochornoso di x ministernan di AVP kendenan awe ta papia den prensa manera cu nunca nan a kibra un copi.

Melvin Tromp (AVP):

‘Plan grandi di Prome Minister pa refinaria cu companianan fantasma’

ORANJESTAD - Gobierno oficialmente a kibra contract cu e compania Citgo y definitivamente e plan di reapertura di e refinaria pa San Nicolas, a yega su fin y miembro di partido AVP, Melvin Tromp ta muestra cu nada a cambia cu vision di partido MEP.

Segun Tromp den pasado caba gobiernonan di MEP a percura pa cera e refinaria, a percura pa core cu compania Mericano cu tabata manehando e refinaria y awor despues di a haci tanto fanfario cu ora zero, ata un biaha mas Prome Minister y lider di MEP, ta firma e final di e plan di reapertura.

“Aruba conoce bon bon cu gobiernonan di MEP nunca a haci algo pa pueblo di San

Nicolas y awor e situacion no ta otro caminda Prome Minister Evelyn Wever Croes ta papia di plannan grandi pero en realidad ta trata aki di plan pa famia-, amigo- y sponsornan.

Tur cos cu pueblo a ripara te na e momentonan aki den henter e asunto di refinaria ta e hecho cu a termina e contract cu Citgo y cu lo tin interes pa huur e tankinan pa almacena petroleo.

Sinembargo den tur loke Minister Presidente a muestra te cu awor, ta algun compania fantasma, un miedo pa bisa di kende e companianan aki ta, di unda nan ta bin of kico realmente nan kier saca for di e tankinan di e refinaria.

Evelyn Wever Croes a papia cu den un pa dos luna di

tempo lo controla y prepara e tankinan aki pa nan wordo gehuur pero no ta menciona ta kende e companianan ta y mientras cu e ta papia cu henter e proceso aki lo bay den un forma transparente, te ainda ningun hende sa ta di cual compania e ta papiando.

Mientras tanto tin desaroyonan si tumando lugha den e refinaria, caminda tin indicacion cu e compania operado nobo di e tankinan aki, ya ta conoci y cu ya lo a yega na un areglo caba cu gobierno.

No tin transparencia manera Prome Minister a priminti ya cu tur cos ta regla caba manera e desaroyonan ta mustando y un biaha mas pueblo ta wordo engaña pa un lider politico cu ya caba a gaña henter un pueblo cu e lo goberna sin medida pero a goberna pa casi tres aña caba, solamente a base di medida.

Prome Minister tambe a papia di negociacionnan pa reapertura di e refinaria pero un biaha mas e no ta menciona number riba cual e companianan aki ta y ta kende nan ta.

Ta mesun Evelyn Wever

Croes aki den un reunion di Parlamento den pasado a bisa na bos grandi den Parlamento, cu porta di compania cu ta habri pa Evelyn Wever Croes, no ta habri pa Mike Eman pero nunca, hamas el a menciona number di un companianan aki.

Pueblo a spera cu awor cu Citgo a bay cu su persona por fin lo a bin cu un di e gruponan aki cu tin porta habri pa su persona, pa sigura

henter pueblo cu e refinaria lo bay habri sigur y cu hopi hende lo haya trabou.

Sinembargo pa di tantisimo bes pueblo por mira atrobe cu Evelyn Wever Croes nunca ta papia berdad, nunca ta di confia ya cu e hende nunca ta central den maneho di su gobierno pero solamente friends and family y amigo cu sponsornan,” Melvin Tromp a declara.

Parlamentario Alan Howell (POR):

‘Kier sa con ta bay haci cu schoolgeld mirando e situacion duro’

ORANJESTAD - Parlamentario Alan Howell a manda un peticion dia 4 di mei di e aña aki atraves di Presidente di Parlamento pa un reunion publico pa atende cu e situacion di enseñansa den e temponan di crisis di Corona Virus y den e normal nobo cu nos ta cuminsa conoce y implementa.

E parlamentario ta indica cu tin hopi pregunta riba e tema di enseñansa den e cuadro aki y p’esey e ta mira e urgencia pa e reunion por tuma lugha mas pronto cu ta posibel. Un di e temanan cu e kier haya mas informacion riba dje ta con ta bay haci cu Schoolgeld. E ta considera cu den

e situacion actual ta imposibel un mama of tata soltero cu a perde trabou y ta haya e sosten di 950 Florin pa luna for di gobierno por "come across" pa paga schoolgeld tambe ora aña escolar nobo habri. E ta considera cu ta importante pa busca of presenta solucionnan pa e situacion aki entre otro unda cu e mucha/hoben no ta wordo perhudica.

“Pa tal motibo mi ta urgi pa e reunion publico riba enseñansa por tuma lugha mas pronto cu ta posibel y asina trece claridad riba e cantidad di pregunta, preocupacion y dudanan cu ta reina na e momentonan aki”, Alan Howell a conclui.

Aruba tin'e controla pero pandemia di Covid-19 no a termina ainda

ORANJESTAD - Ayera a registra e cifra mas abao di casonan ainda activo, desde cu e cantidad di caso a cuminsa subi na fin di maart y cuminsamento di april ultimo.

Sinembargo den e actualisacion di casonan duna cu departamento di Salud Publico (DVG) ta aparece 7 caso positivo activo di e virus. Y ainda e mesun cifra di 101 caso positivo for di dia 5 di mei ultimo. E golf femenino na Sur Korea ta join liganan profesional di baseball y futbol di Korea cu ya a reinicia a raiz di e paimdema di coronavirus.

e lo ser transmiti” e organisadonan a bisa den un comunicado. E torneo di Lakewood Country Club ubica na parti oost di e capital, Seoul tabata schedule originalmente pa april 30m te cu 3 mei.

Organisadonan a bisa cu distanciamiento social lo ser practica pa hungadonan y oficialnan di torneo. E hungadonan tambe lo tin desinfecante pa man disponible. No tabata tin claridad si e hungadonan lo haci testnan di coronavirus. E veld di 150 hunga-

do ta top pa Park Sung-hyun, Kim Sei-young y e campeon defensor Choi Hye-jin.

Ajax wardando pa prijs corecto pa laga Van de Beek bay

AMSTERDAM (Dutch-News.nl) – Ajax a bisa cu nan ta wardando pa e prijs corecto prome cu nan laga e mediocampista van de Beekbandona e club den verano. E atleta di 23 aña di edad ta den top clubnan Europeo incluyendo Real Madrid, Barcelona and Manchester United pa mas di 1 aña. Na december Telegraaf a raporta cu el a bay di acuerdo na principio pa bay Madrid pa €55m, pero pa motibo di e crisis di coronavirus a pone e transferencia internacional on hold.

Van de Beek ta e unico hungado di Ajax te cu awo cu a bay di acuerdo cu terminonnan cu e club y su administracion personal pa bay durante verano, e presidente ehecutivo Edwin van der Sar esta

a bisa e siman aki. E defensoran Sergiño Dest, Nicolas Tagliáfico y e portero André Onana tambe ta busca movimiento. E entrenador hefe Erik ten Hag a confirma luna pasa cu e club tin un acuerdo cu Onana pa permiti cu e Cameroon internacional di 24 anda bay si un club match e baloracion di Ajax.

Dest tabata vincula cu un transferencia di € 20 miyones pa Bayern Munich prome cu e brote di coronavirus, pero su posibilidad di firma pa e campeonnan Aleman a disminui. Tottenham Hotspur tambe ta interesa den firma e Estadounidense internacional di 19 anja naci na Hulanda. Na februari Ajax a compra e delantero Brasileño Antony de Sao Paulo pa € 15.75 miyon yegando na € 21.75 miyon. E hungado di 19 anda a

ser compra den parti di cobertura pa su compatriota David Neres, kende no a hunga

desde cu el a sufrir un lesion di rudia den e Champions League clash cu Chelsea na

november.

Sainz lo reemplaza Vettel den team Ferrari

(BBCSport) – Tin fuerte indicacion cu e coredor Spaño Carlos Sainz lo ta e reemplazante di Sebastian Vettel den equipo di Ferrari, y Daniel Ricciardo ta menciona como es-

uncu ta tuma su posicion den team di McLaren.

Negociacion pa yega na un deal den ambos caso ta na caminda ainda y no tin acuerdo final, pero ta anticipa cu e si-

man aki ta yega na un conclusion.

McLaren tabata tras di Ricciardo pa basta tempo caba y su contratacion ta ser mira como un ‘coup’. Sin em-

bargo, nan mester laga Sainz liber di obligacion contractual pa por firma cu e Australiano. Sainz tabata den negociacion pa keda cu McLaren despues di 2020 pero e atractivo di join un team top a convence pa move.

E efecto di ‘domino’ den mercado di coredor a cuminsa na momento cu negociacion di un contract entre Ferrari y Vettel a fracasa. Ferrari a anuncia diamars pasa cu e Aleman, cuatro vez campeon mundial, lo bandona e team na fin di e temporada aki, cu ta paralisa ademas pa e crisis di coronavirus.

Ferrari a identifica Sainz como e coredor ideal pa apoya Charles Leclerc, cu a percura pa bon prestacion

den su prome temporada cu Ferrari aña pasa y a mina status di Vetteloke a significa comienzo di fin pa Vettel, cu no tabata dispuesto pa acepta un contract menos lucrativo.

Ferrari ta mira Sainz den e tipo di papel di back-up cu Valtteri Bottas ta hunga pa Lewis Hamilton cerca Mercedes, rapido bastante pa keda cerca y lucha cu otro coredor, pero no cu su lider di team.

Sainz, cu a competi cu Toro Rosso y Renault promer cu el a bay McLaren aña pasa, ta mira e move aki probablemente como un oportunidad pa proba su mes como un coredor top.

Common ta urgi liberacion di prisioneronan

NEW YORK (AP) — Rapper y activista Common a bay den cuarentena preocupante tocante hende cera den prison, kende el a conoce durante su bishitanan na prison, warda di polis, y centronan di detencion hubenil rond Merca, y kende no ta capaz di mantene distanciamiento social of adopta rutina riguroso di higiena pa preveni transmision di COVID-19.

"Ta un tempo preocupante pa nan", Common a bisa, pasobra nan ta hende cu usualmente ta wordo ignora." Ayera, su organisacion di reforma criminal Imagine Justice a lansa un campaña cu decenas di gruponan defensor y activista pidiendo pa atencion na e menasa cu e pandemia di coronavirus ta representa riba millones di homber, muhe y hoben cu ta deteni na Merca. E campaña, yama #WeMat-

terToo, ta urgiendo autoridatnan pa inmediatamente libera hende cu a sirbi e mayoria di nan sentencia, specialmente si nan tin condicionnan di salud cu ta pone nan den riesgo di malesa severo of morto di COVID-19. Maske institutonan coreccional local y estatal ya a libera miles di persona pa motibo di pandemia, sostenedonan di e campaña tambe kier pa gobiernonan paga pa test y pa aloha e detenidonan despues di nan liberacion. Common a bisa cu tambe e ta spera di crea consciencia publico tocante kico ta pasapaden di prison na e pais y e impacto cu esaki tin riba sociedad. "Nos tur tin pregunta sin contesta tocante e pandemia", e rapper ganado di premio Grammy y di Academia a bisa. "Pero ta den prison ta agrega un capa mas na e pregunta aki, pa motibo di e forma con ta trata hende den prison."

Brote di coronavirus den prisionnan rond e pais a causa alarma entre defensoran, kende ta bisa cu un protocolo di mitigacion inadecua ta menasa tanto e bida di prisioneronan como di oficialnan coreccional. Luna pasa, US Bureau of Prisons a revela data cu a muestra cu mas di 70% di persona den custodia federal cu a test pa COVID-19 tabata positivo. Den ciudad natal di Common, Chicago, unda e Cook County Jail ta un di e prisionnan mas grandi di e pais, un hues federal luna pasa a duna orden pa oficialnan sigura distanciamiento social entre e 4mil persona den custodia. Te cu diamars, 161 detenido y 81 oficial coreccional tabata positivo pa COVID-19, segun departamento di sheriff. Hopi mas a test positivo pero a recupera. Shete prisionero cu a test positivo a fayece. Garantisa seguridad di prisioneronan durante e pan-

demia ta un asunto di humanidad, no polirica, segun Sam Lewis, director cheecutivo di Anti-Recidivism Coalition basa na California, un di casi 65 organizacion partner den e campaña #WeMatterToo. "Hende a comete erornan cu a pone nan cay cera", Lewis a bisa, un ex-prisionero. "Pero esey no ta nifica cu nan mester djis muri na e luganan ey. Responsabilidad no ta un

sentencia di morto." Prome cu e pandemia, e grupo Imagine Justice di Common a organisa bishitanan regular na facilidadnan coreccional. Desde e pandemia, a stop of reduci severamente bishitanan na cantidad di facilidad. "Algun di e personan mas fuerte cu mi a yega di conoce ta den prison", Common a bisa. "Mi ta kere nos por sali di esaki miho cu nos tabata antes."

Matt Damon a revela cu su yiu muhe tabatin coronavirus

(infobae) - Matt Damon ta pasando cuarentena hunto cu algun di su famia na Irlanda. E actor ta ey pasobra e pandemia pa coronavirus a yega memey di su filmacion. Den un entrevista pa un radio local, el a conta cu su yiu Alexia di 21 aña di edad a contrae coronavirus na New York.

"Nos yiu muhe ta den universidad. El a haya COVID-19 na cuminsamento di e pandemia, pero el a logra supera esaki", el a revela.

Damon a papia tocante salud di Alexia, kende ta fruto di un relacion anterior na su esposa Luciana Barroso, y a admiti cu e pandemia 'ta duna miedo'.

Damon tambe a bisa cu e lo reuni cu henter su famia aki algun siman: "Di nos cuatro yiu muhe nos tin esunnan mas chikito cu nos y cu e mayor nos lo reuni fin di luna. Pero tur ta bon. Nos lo bay bek Los Angeles y Alexia

lo ta cu nos."

Damon tabata na Irlanda filmando su proximo pelicula 'The Last Duel' na momento cu e no por a biaha mas pa motibo di restriccion pa e pandemia. Pero el a afirma cu 'ta un di e luganan mas bunita den cual mi a yega di ta', unda e tin bisiña musico Irlandes, manera Bono y Enya.

Damon, su esposa Luciana y su yiunan Isabella (13), Gia (11) y Stella (9), ta bibando den un casa luhoso di \$8.6

miyon den un di e zonanan mas exclusivo di e luga. Tampoco nan ta enfrentando retonan pa educacion na cas, ya cu e actor a revela cu ya nan tabatin maestro cu nan, desde cu nan tabata sa cu e muchanan lo ta leu di cas durante ocho siman.

Finalmente e actor a papia tocante e furor causa pa su pelicula di 2011, Contagion, cu a dramatiza loke por pasa si un epidemia plama rond mundo. "Henter e asunto ta tragico y tristo", el a bisa.

Pushi sin sintoma ta transmiti virus na otro pushi den test di laboratorio

(AP) - Pushi por transmiti novel coronavirus na otro pushinan sin ningun di nan teniendo sintoma, un experimento di laboratorio ta sugeri.

Cientificonan liderando e investigacion reporta ayera a bisa cu esaki ta demostra e necesidad pa mas investigacion riba si e virus por ser transmiti di hende pa pushi y bek pa hende.

Expertonan di salud ta laga e posibilidad aki un banda. American Veterinary Medical Association a bisa den un declaracion nobo cu djis pasobra por infecta deliberadamente un animal den un laboratorio, 'no ta nifica cu e lo ta facilmente infecta cu e mesun virus den condicionnan natural'.

Cualquier persona preocupa

tocante e riesgo aki mester 'usa higiena di sentido comun', segun expeerto Peter Halfmann. No duna sunchi na bo mascota y tene superficenan limpi pa reduci chens di haya cualkier virus cu por ta riba e animal, el a bisa.

Hunto cu coleganan na Scol di Medicina Veterinario di Universidad di Wisconsin, el a lidera e experimento y a publica resultadonan ayera den New England Journal of Medicine. Fondonan federal a patrocina e trabou.

Investigadonan a tuma coronavirus di un pashent humano y a infecta tres pushi cune. Despues a pone cada pushi cu otro pushi liber di infeccion. Dentro di cinco dia, coronavirus a ser haya den tur tres e animalnan exponiultimo. Niun di e seis pushi a presenta sintoma.

"No tabatin tosamento, nister, temperatura halto ni nan

a perde peso", Halfmann a bisa. "Si su doño mira nan... no lo a ripara nada."

Luna pasa, dos pushi domestico den partinan diferente di New York a test positivo pa coronavirus despues di malesa respiratorio leve. A pensa cu nan a haya e virus di hende na cas of den nan bisindario.

Algun tiger y leon na Bronx Zoo tambe a test positivo pa e virus, como tambe un cantidad chikito di otro animal rond mundo. E casonan aki, como e experimento di laboratorio en cuestion, ta muestra cu 'tin un necesidad di salubridad publico pa reconoce y investiga mas e potencial cadena di transmision humano-pushi-humano, e autoranan a kirbi.

Guia di US Centers for Disease Control and Prevention (CDC) ta bisa cu basa riba e informacion limita disponible actualmente, e riesgo cu

mascota ta transmiti coronavirus na hende 'ta considera abou'.

E grupo di medicina veterinario ta bisa cu 'no tin evidencia pa sugeri cu animal, incluyendo mascota, cu por incidentalmente wordo infecta pa humano, tin un rol den transmision di COVID-19'. A destaca cu transmision di persona-pa-persona ta impulsando e pandemia global.

Sinembargo, e grupo a nota cu hopi malesa ta transmiti entre mascota y hende, pues higiena semper ta importante: laba man prome y despues di mishi cu mascota, y tene bo mascota y su baki di awa y cuminda limpi.

Halfmann, kende su dos pushi ta drumi cerca, a bisa cu e preocupacion por ta mayor pa shelternan, unda un animal infecta por pasa e virus na cantidad di otronan.

Parlamento Frances ta adopta ley riba eliminacion di contenido di odio online

(AP) - Parlamento Frances a aproba un ley cu meta pa combati odio online, cu ta obliga plataformanan y motor di buskeda pa elimina contenido prohibi dentro di 24 ora cuminsando dia 1 di juli proximo.

Legisladonan a adopta e legislacion proponi ayera. Entrega pa partido LREM di presidente Frances, Emmanuel

Macron, e ley ta permiti multa di hasta 1.25 milyon euro.

E ta enfoca riba texto, potret, video y website cu ta incita odio of violencia, of cu tin insulto of un naturalesa racista of religioso.

E legislacion a enfrente un oposicion expresivo na Francia y mas leu, di criticonan cu a bisa cu lo socava e derecho democratico riba libertad di

expresion.

Computer & Communications Industry Association, un grupo defensor cu oficina na Washington y Brussels, a bisa cu tabata preocupa cu e legislacion Frances 'por conduci na eliminacion excesivo di contenido mientras companianan, specialmente startup, lo comete error den intento di precaucion'.

Instagram ta introduci característica nobo pa un espacio 'mas positivo'

(mashable) - Instagram ta continua su lucha contra termento riba su plataforma, e biaha aki facilitando

control di negatividad cu ayudo di algun característica nobo.

Awo lo ta posibel pa elimina gran cantidad di comentario negativo di un solo vez, como tambe block of restringi varios cuenta.

Claro, esaki ta mas util pa esunnan cu cantidad grandi di siguido, kende usualmente ta ricibi miles di comentario riba un solo post. Na luga di mester sinta y elimina cada comentario individualmente, awo nan por elimina tur di nan cu un par di 'tap'.

Esunnan cu iOS por habilita e característica door di tap un comentario, y despues e icono di tres punto ubica na e skina ariba banda drechi. Ey-

nan, selecta e opcion 'Manage Comments' y scoge te hasta 25 comentario pa elimina simultaneamente. Por block cuentanan tur hunto door di tap 'More Options'.

Usuarionan di Android ya tabatin habilidad di elimina comentarionan en cantidad, pero awo tambe por block of restringi cuentanan door di tap y wanta un comentario, tap e icono di tres punto, y selecta 'Block' of 'Restrict'.

Den otro intento pa combati termento, e compania tambe ta lansando controlnan pa controla ken por tag of menciona bo riba Instagram. Den

Settings, por scoge pa duna permiso pa menciona of tag bo den un comentario, descripcion di potret, of Storia pa tur hende, of unicamente hende cu bo ta sigui, of niun persona.

Pa resalta positividad, Instagram pronto lo test 'Pinned Comments', den cual usuarionan por selecta un cantidad specifico di nan comentarionan favorito y 'pin' esakinan na top di nan comentarionan. Mirando cu tur hende ta pega na nan smartphone durante e pandemia, no tin realmente un miho momento pa enfatisa e importancia di positividad riba rednan social.

Virus restrictions fuel anti-government 'boogaloo' movement

Continued from Front

On Saturday, a demonstration in Raleigh, North Carolina, promoted by a Facebook group called "Blue Igloo" — a derivation of the term — led to a police investigation of a confrontation between an armed protester and a couple pushing a stroller.

Another anti-lockdown rally is planned for Thursday at the state Capitol in Lansing, Michigan, site of an angry protest last month that included armed members of the Michigan Liberty Militia. Michigan Gov. Gretchen Whitmer, a Democrat, has been the target of violent threats on Facebook forums, including a private one called "The Rhett E. Boogie Group."

One user said Whitmer should be "guillotined" after another suggested another governor should be hanged from a noose, according to a screenshot captured by the Tech Transparency Project research initiative.

The coronavirus pandemic has become a catalyst for the "boogaloo" movement because the stay-at-home orders have "put a stressor on a lot of very unhappy people," said J.J. MacNab, a fellow at George Washington University's Program on Extremism. MacNab said their rhetoric goes beyond discussions about fighting virus restrictions — which many protesters brand as "tyranny" — to talking about killing FBI agents or police officers "to get the war going."

"They are far more graphic and far more specific in their threats than I've seen in a long time," she said.

The violent rhetoric is dramatic escalation for an online phenomenon with its roots in meme culture and steeped in dark humor. Its name comes from the panned 1984 movie "Breakin' 2: Electric Boogaloo," which has become slang for any bad sequel. Another derivation of "boogaloo" is "big luau" — hence the Hawaiian garb. Far-right gun activists and militia groups first em-

braced the term before white supremacist groups adopted it last year. And while some "boogaloo" followers maintain they aren't genuinely advocating for violence, law-enforcement officials say they have foiled bombing and shooting plots by people who have connections to the movement or at least used its terminology.

A 36-year-old Arkansas man whose Facebook page included "boogaloo" references was arrested on April 11 by police in Texarkana, Texas, on a charge he threatened to ambush and kill a police officer on a Facebook Live video.

"I feel like hunting the hunters," Aaron Swenson wrote on Facebook under an alias, police say.

An April 22 report by the Tech Transparency Project, which tracks technology companies, found 125 Facebook "boogaloo"-related groups that had attracted tens of thousands of members in the previous 30 days. The project pointed to coronavirus crisis as a driving factor.

"Some boogaloo suppor-

ters see the public health lockdowns and other directives by states and cities across the country as a violation of their rights, and they're aiming to harness public frustration at such measures to rally and attract new followers to their cause," the project's report says. Facebook has since updated its policies to prohibit use of "boogaloo" and related terms "when accompanied by statements and images depicting armed violence," the company said in a statement. In March, a Missouri man with ties to neo-Nazis was shot and killed when FBI agents tried to arrest him. Timothy Wilson, 36, was planning to bomb a hospital in the Kansas City area on the day that a COVID-19 stay-at-home order was scheduled to take effect, authorities said. Wilson told an undercover FBI agent that his goal was "to kick start a revolution" and referred to his plans as "operation boogaloo," according to an agent's affidavit.

Earlier this month, the U.S. Department of Homeland Security issued an alert that

said a white supremacist group was inciting followers to shoot through their doors at FBI agents and police officers, federal prosecutors wrote in a court filing. The warning related to "associates" of Bradley Bunn, a 53-year-old U.S. Army veteran who was arrested on May 1 after FBI agents allegedly found four pipe bombs at his house in Loveland, Colorado, the filing said. Authorities haven't publicly linked Bunn to any group or movement, but a federal prosecutor said agents intercepted Bunn on his way to an armed protest at the state Capitol against COVID-19 restrictions. Bunn told investigators that he would be willing to "take out a few" officers to "wake everyone up," the prosecutor said during a court hearing.

While the anti-lockdown protests have provided the spotlight on the "boogaloo" movement, a police shooting in Maryland has galvanized its supporters. Duncan Lemp, 21, was shot and killed by police on March 12 as officers served a search warrant at his fa-

mily's home. An eyewitness said Lemp was asleep in his bedroom when police opened fire from outside his house, according to an attorney for his family. Police said he was armed with a rifle and ignored commands.

On his Instagram account, Lemp had posted a photograph that depicts two people holding up rifles and includes the term "boogaloo." His death spawned a hashtag campaign within the movement.

"A lot of individuals are very upset at the way this country is being run and the laws that are getting passed that criminalize law-abiding citizens," said Mike Harts, a U.S. Army infantry veteran who befriended Lemp through social media. Harts, 27, says "boogaloo" started as a funny meme but has evolved into a deeper symbol for the "liberty movement."

Lemp's family appreciates the outpouring of support but doesn't want "any violence or unlawful actions to be taken in his name," family attorney Rene Sandler said in a statement. □

Paul Manafort released from prison due to virus concerns

By **MICHAEL BALSAMO**

Associated Press

WASHINGTON (AP) — Paul Manafort, Donald Trump's onetime presidential campaign chairman who was convicted as part of the special counsel's Russia investigation, has been released from federal prison to serve the rest of his sentence in home confinement due to concerns about the coronavirus, his lawyer said Wednesday. Manafort, 71, was let out Wednesday morning from FCI Loretto, a low-security prison in Pennsylvania, according to his attorney, Todd Blanche. Manafort, jailed since June 2018, had been serving more than seven years in prison following his conviction.

His release comes as prison advocates and congressional leaders have been pressing the Justice Department for weeks to release at-risk inmates before a potential outbreak in the system. They argue that the public health guidance to stay 6 feet (1.8 meters) away from other people is nearly impossible behind bars. But Manafort did not meet qualifications set by the Bureau of Prisons for potential release in the pandemic. Under the bureau's guidelines, priority is supposed to be given to those inmates

who have served half of their sentence or inmates with 18 months or less left and who served at least 25% of their time. The bureau has discretion about who can be released. His lawyers had asked the Bureau of Prisons to release him to home confinement, arguing that he was at high risk for coronavirus because of his age and

preexisting medical conditions. Manafort was hospitalized in December with a heart-related condition, two people familiar with the matter told The Associated Press at the time. They were not authorized to discuss the matter publicly and spoke to the AP on condition of anonymity. Other high-profile inmates such as Trump's former per-

sonal lawyer Michael Cohen and lawyer Michael Avenatti, who rose to fame representing porn star Stormy Daniels in lawsuits against Trump, have been told they are getting out. Kathy Hawk Sawyer, a senior adviser at the Bureau of Prisons who formerly led the agency, said in an interview in late April that to "suggest that we are

only identifying high profile white collar inmates for home confinement, is absurd." A Bureau of Prisons spokeswoman said more than 2,400 inmates have been moved to home confinement since March 26, when Barr first issued a home confinement memo, and more than 1,200 others have been approved and are in the pipeline to be released. But prisons officials will not give out any demographic information. The bureau has given contradictory and confusing guidance how it is deciding who is released to home confinement in an effort to combat the virus, changing requirements, setting up inmates for release and backing off and refusing to explain how it decides who gets out and when.

Attorney General William Barr ordered the agency in March and April to increase the use of home confinement and expedite the release of eligible high-risk inmates, beginning at three prisons identified as coronavirus hot spots. There are no confirmed coronavirus cases at FCI Loretto.

As of Tuesday, 2,818 federal inmates and 262 BOP staff members had positive test results for COVID-19 at federal prisons across the country. Fifty inmates had died. □

WASHINGTON (AP) — Organizations conducting research into COVID-19 may be targeted by computer hackers linked to the

Chinese government, according to the FBI and the Department of Homeland Security. Neither agency cited any specific examples Wednesday, but they warned that

U.S. says Chinese hackers might be targeting virus researchers

institutions and companies involved in work on vaccines, treatments and testing for the novel coronavirus should take additional security measures to protect data and be aware of the potential threat. "China's efforts to target these sectors pose a significant threat to our nation's response to COVID-19," said a statement from the U.S. Cybersecurity and Infrastructure Security Agency. "This announcement is intended to raise awareness for research institutions and the American public and provide resources and

guidance for those who may be targeted." It comes amid heightened tensions between the two countries over the source of the outbreak and Trump administration complaints that China did not adequately alert the world to the danger posed by the new coronavirus. The warning also echoes long-standing U.S. complaints that China has engaged in the wholesale theft of technology and trade secrets to build its economy. Institutions that have received media attention for

their efforts related to COVID-19, the disease caused by the coronavirus, should assume that they would be targeted and should take precautions, the Department of Justice said. "The potential theft of this information jeopardizes the delivery of secure, effective, and efficient treatment options," it said. The FBI and the cybersecurity agency said they were issuing the alert to raise public awareness of the potential threat and said additional technical details would be released in the coming days. □

Italy's South Tyrol invokes autonomy to pry open lockdown

By COLLEEN BARRY

Associated Press

BOLZANO, Italy (AP) — The blazing orange letters of fire spelled out a familiar message in Italy's South Tyrol province, an old call to resistance repurposed for the days of the coronavirus: "Los von Rom" and "Freiheit," German for "Away from Rome" and "Freedom."

In decades past, the words ignited on a mountainside demanded independence from Rome's rule for the province's German-language majority. Now, they vent discontent in South Tyrol, which was once part of Austria, with the uncompromising and indiscriminate lockdown imposed by the Italian government to slow the spread of the coronavirus.

Spurred by economic pressure, the provincial governor defied Rome this week and reasserted South Tyrol's cherished autonomy, allowing restaurants, hair salons, tattoo parlors and museums to reopen Monday -- well ahead of the timetable set by Italy's government.

"We have a relatively positive situation regarding the epidemic, with a rate of contagion the lowest in Italy," said Gov. Arno Kompatscher, whose South Tyrolean People's Party has controlled the province since 1948. The party's legislators in the national parliament back Italian Premier Giuseppe Conte's government.

"We appreciated the actions of the government in the phase of emergency, where it was necessary to move in a united way," Kompatscher said. "But we are very proud and jealous of our autonomy."

While the rest of Italy watched with a mix of envy and curiosity, South Tyroleans wearing masks could browse shops again for items such as a tablecloth needed for a gift, have piercings changed by appointment and visit a hairdresser for a long-overdue haircut.

They sat in Walther Square, near Bolzano's Duomo, and

ate lunch at the prescribed 2-meter (over 6 foot) distance or drank coffee in bars outfitted with Plexiglas safety screens.

Despite the province's bold stance, some business owners demurred to Rome -- for now.

Alexander Sullmann, a bar owner in the town of Neumarkt, known in Italian as Egna, said he was waiting at least a week to see if clearer safety guidelines for his industry emerge. He was particularly worried about how to enforce rules that forbid more than two people from different households at a single table.

"The province gave us the OK, but there are a lot of questions and a lot of rules are not set in stone yet," Sullmann, 30, said,

South Tyrol, or Alto Adige to Italian speakers, is an Alpine province of world-class ski resorts and neatly manicured orchards and vineyards that became part of Italy after World War I. Following a period of violence in the 1950s and 1960s, the German-speak-

ing resistance settled down after Italy implemented the province's autonomy status, enshrining bilingualism and allowing 90% of local tax revenue to remain in South Tyrol.

The province, with a population of 520,000, today enjoys the highest gross domestic product per capita in Italy and among the highest in Europe at 42,600 euros (\$45,500). But the pandemic is forecast to contract the economy by as much as 11%, which could get worse depending on the virus' trajectory. The head of the region's 59,000-member chamber of commerce, Michl Ebner, backed the push for South Tyrol to go its own way on emerging from the virus lockdown.

"I understand the concept of solidarity," Ebner said. "But you cannot apply the same rules from Lampedusa to the Brenner Pass. The situations are different."

South Tyrol reported no new confirmed virus cases on Tuesday. The province so far has 2,572 confirmed

cases with 290 deaths -- both figures representing about 1% of Italy's totals. Ebner pointed to a lack of discipline in Italy's hard-hit Lombardy region during the early stage of an initial lockdown, when cellphone data showed about half of residents leaving their homes.

In South Tyrol, "when the order was given not to leave home, people didn't leave their homes," he said. "If here the numbers are improving ... we need to take note and award the virtuous."

While the government successfully blocked the southern region of Calabria's efforts to reopen ahead of the national schedule, South Tyrol managed to avoid significant legal challenge due to its self-governance statute.

Until the flaming words that appeared recently against the night sky, it had been years since fires protesting Rome's governance burned on local mountainsides.

The leader of the

6,000-strong "Schuetzen," a cultural association that aims to preserve Tyrolean customs and which sees Rome as a foreign power -- took credit for igniting the flames. Juergen Wirth Anderlan thinks the "peaceful message" made Kompatscher's push to open businesses easier to sell to Rome's minister for regional affairs.

"He could say, 'I don't have my people under control, there is something bubbling up there,'" Wirth Anderlan told the AP. "What the economic federations and tourism federations told the provincial president was probably heavier and carried more pressure than from us. We underscored that with these fires."

Wirth Anderlan said he rejects the violence of past secession moves -- although he wants to see South Tyrol become either independent or annexed by Austria. Neither position is on the mainstream South Tyrol political agenda, and both are widely seen as limited to a fringe. □

Lesotho becomes last African nation to confirm a virus case

By **HERBERT MOYO** Associated Press

MASERU, Lesotho (AP) — Southern Africa's tiny mountain kingdom of Lesotho on Wednesday confirmed its first case of COVID-19, making it the last African country to report the disease. With the announcement, all 54 countries in Africa have now reported cases. Lesotho's health ministry said one person who recently arrived in the country had tested positive but was not showing signs of being ill. The patient was being isolated. The country of 2 million people is surrounded by South Africa, which has the highest number of confirmed cases in Africa with 11,350. The coronavirus has been slow to spread in Africa but cases are rising across the continent. More than 69,500 cases have been confirmed with more than 2,400 deaths, according to the Africa Centers for Disease Control and Prevention. □

French lawmakers adopt bill on removing hate content online

By **The Associated Press** undefined

France's parliament has approved a bill aimed at fighting hate online that obliges platforms and search engines to remove prohibited content within 24 hours starting July 1. Lawmakers adopted the proposed legislation on Wednesday. Submitted by French President Emmanuel Macron's LREM party, the law allows for fines of up to 1.25 million euros (\$1.1 million.) It targets texts, pictures, videos and web pages that incite hatred or violence, or that carry insults of a racist or religious nature. The bill faced vociferous opposition in France and beyond from critics who said it would curtail the democratic right to freedom of expression. The Computer & Communications Industry Association, an advocacy group with offices in Washington and Brussels, said it was concerned the French legislation "could lead to excessive takedowns of content as companies, especially startups, would err on the side of caution." □

Mexico finds 15,000 turtles in crates bound for China

MEXICO CITY (AP) — Mexican authorities said Tuesday they have seized a shipment of 158 wooden crates bound for China containing about 15,000 fresh-water turtles, some of them endangered. The environmental prosecutors' office said the crates were found at a freight facility on the outskirts of Mexico City. The turtles included white-lipped mud turtles, Mexican giant musk turtles, narrow-bridged musk turtles and the common red-eared slider. About 260 of the creatures had died in the crates. The office said the turtles were not properly marked, nor did the shipment's paperwork accurately reflect the species of turtles involved. The trade in other kinds of wildlife has been implicated in the transmission of threats like the novel coronavirus to humans. □

Puerto Rico closes public school cafeterias amid food crisis

By **DÁNICA COTO**

Associated Press

SAN JUAN, Puerto Rico

(AP) — Puerto Rico officials announced Wednesday that they are closing more than 30 public school cafeterias and several food warehouses after dozens of workers tested positive for the new coronavirus — a blow for students who activists say are often going hungry during the pandemic lockdown.

Education Secretary Eligio Hernández said the temporary closures come after 50 employees tested positive and another 278 were placed under quarantine.

The closures hit places including Caguas and Mayaguez, two of the largest cities in a U.S. territory where nearly 70% of public school students are poor. "Under no circumstance do we want employees, municipal workers who are helping us and, least of all, our children, to catch this virus," he said. Several mothers and nonprofit organizations have sued the island's Department of Education, accusing it of dodging its responsibility to feed the island's nearly 300,000 public schoolchildren. A judge was expected to rule in the case on Friday. Education

officials initially refused to open the department's 854 school cafeterias during the lockdown that began in mid-March, citing health concerns, noting that 64% of workers are elderly. Instead, they offloaded the food to nonprofits and a food bank, but it soon ran out. Two weeks ago, officials abruptly changed their stance and have since reopened more than 100 school cafeterias, but crews are distributing only one meal instead of the two that were previously served, and activists say the food is not reaching all those in need. □

New coronavirus test is imperfect step toward mass screening

By MATTHEW PERRONE

AP Health Writer

WASHINGTON (AP) — A new type of coronavirus test offers a cheaper, quicker way to screen for infections, moving the U.S. toward the kind of mass screening that experts say is essential to returning millions of Americans to school and work.

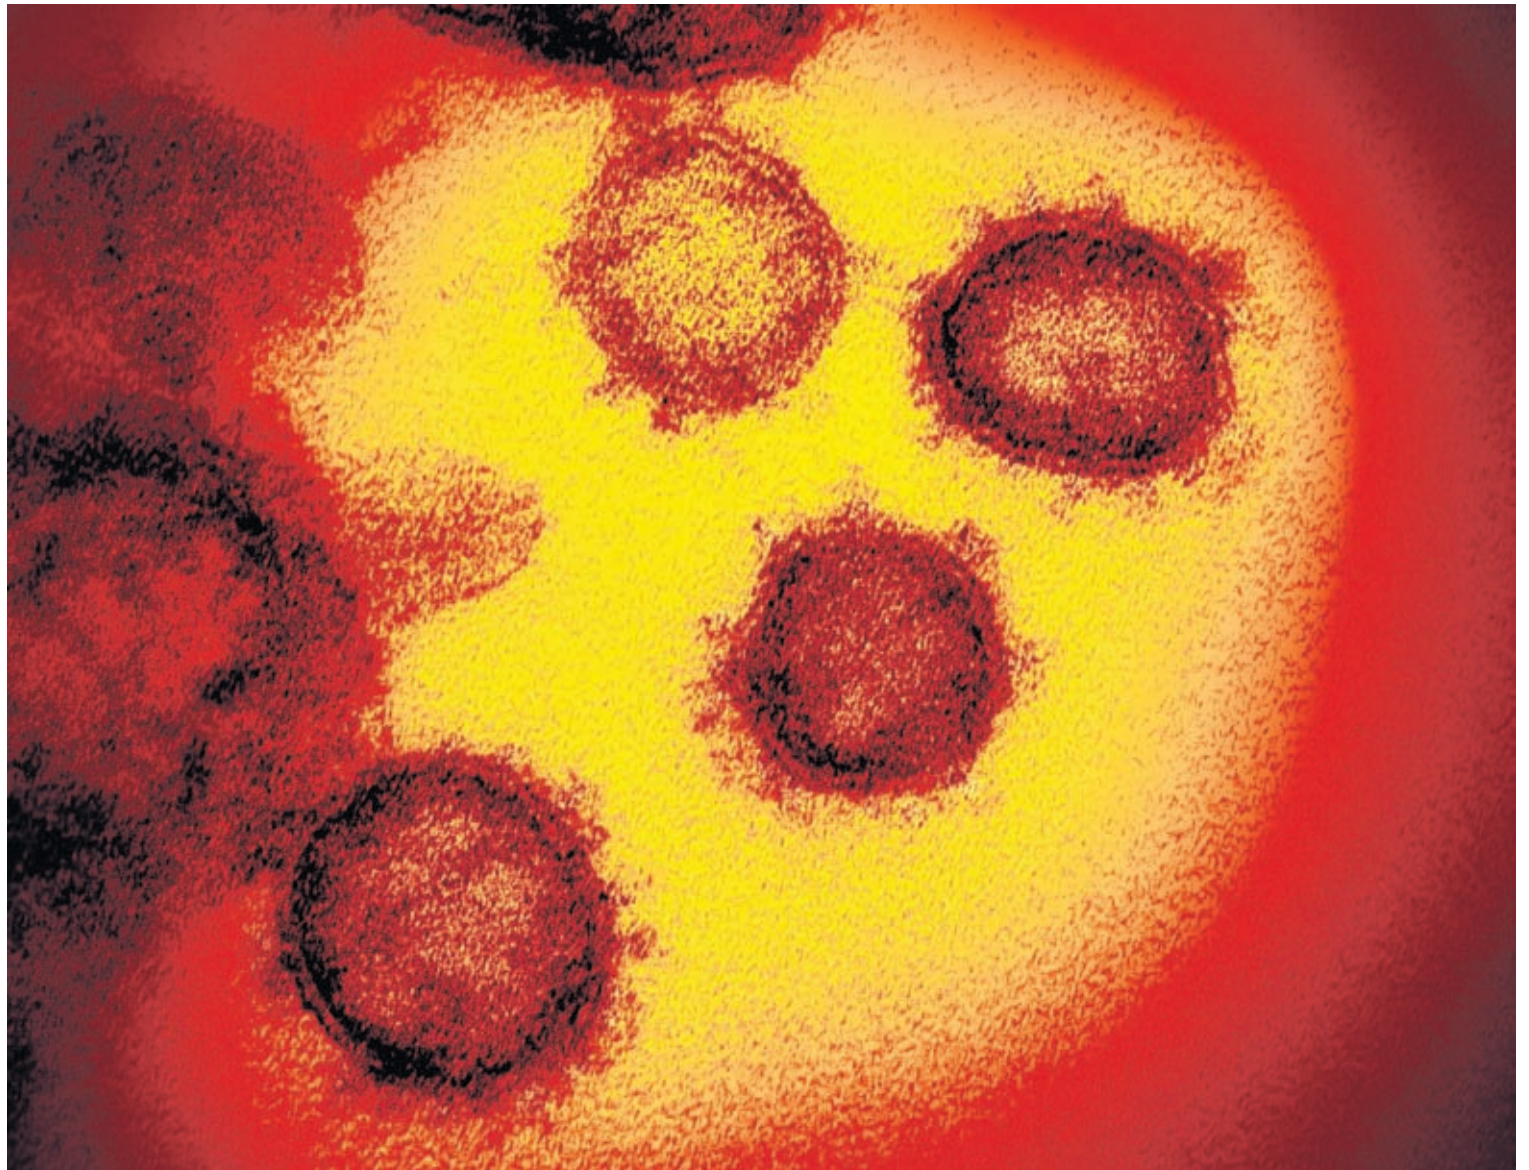

But the first so-called antigen test — announced Saturday by the Food and Drug Administration — is not quite the kind sought by top government health officials. It is less accurate than the current gold standard for testing and can only be run on specialized equipment.

"It is too early to tell," said lab researcher Patricia Simner of Johns Hopkins University, assessing the test's impact. "It certainly has the potential to aid in more widespread testing."

Some questions and answers about the new test:

WHAT'S DIFFERENT ABOUT THIS TEST?

The test from Quidel Corp. screens for new infections but in a different way. It looks for protein traces of the virus — known as antigens. The same approach is used in rapid tests for flu, strep throat and other infections that are run at the hospital or doctor's office. They represent a trade-off, sacrificing some of the accuracy of more rigorous tests for quicker results at a lower cost. "They allow you to dramatically expand testing and they're very cheap," said Dr. Scott Gottlieb, the former FDA commissioner, in an interview Sunday with CBS. But he acknowledged antigen testing's reduced accuracy: "They're going to miss some patients who have COVID." Previously, the only way to diagnose active infections was a test that detects the genetic material of the virus. While highly accurate, most of those tests take hours to develop on machines mainly found at commercial labs, hospitals or universities. Abbott Laboratories makes a 15-minute version of the genetic test that runs on its portable

machine, but it only does one sample at a time.

WHY IS ANTIGEN TESTING IMPORTANT?

The U.S. is still struggling to increase testing to the levels that most public health experts say are essential. Harvard researchers have projected that the nation needs to be able to do 900,000 daily tests to be able to track new cases and contain new outbreaks as the country reopens. That's more than three times the country's current daily testing rate of about 275,000.

White House adviser Dr. Deborah Birx and other federal officials have said a "breakthrough" in antigen testing could open the way to daily testing before going to back to work or school.

The National Institutes of Health is pouring \$1.5 billion into efforts to develop highly accurate, easy-to-use tests that could be

performed without professional oversight or special equipment. While an important stepping stone, the Quidel test isn't there yet.

HOW DOES IT WORK?

The new test uses a nasal swab like other screening tests, and delivers results in about 15 minutes.

The sample is put in a tube with testing chemicals and then into a cassette that goes into the company's electronic reading device. There, it's exposed to a testing strip embedded with laboratory-made antibodies, the specific blood proteins made by the body's immune system when it detects an infection. If the antigens and antibodies interact, the test is positive.

HOW ACCURATE IS THE TEST?

The new test is expected to detect about 80% of active COVID-19 infections, according to the FDA. That accuracy rate is similar to other rapid antigen tests for

seasonal flu.

"They are going to pick up fewer people that are infected," said Simner of Johns Hopkins. "So that's where you see a lot of skepticism around using antigen tests for the diagnosis of COVID-19."

For now, Simner and other experts say negative test results for people showing symptoms should be confirmed with the more accurate genetic test.

"But as you might imagine, that's not a perfect scenario because you have to do twice as many tests when the result isn't positive," said Dr. Robin Patel of the Mayo Clinic.

WHAT'S NEXT?

Many companies are working on versions that would

be more accurate, easier to use and more suitable for mass screenings.

OraSure Technologies has a \$710,000 federal contract to develop a saliva-based antigen test that could be performed at home. The company has antigen tests for other viruses — including HIV and Ebola — and those have accuracy rates of over 95%. Along with accuracy, the company is focused on speed, aiming to deliver results in 20 to 30 minutes.

"If you are going to test people coming into work you can't make them line up at 3 a.m.," OraSure CEO Stephen Tang said. "You need to be able to get their results quickly." □

Review: A grotesque, inglorious look at Capone's last year

By **LINDSEY BAHR**
AP Film Writer

Al Capone lived out his final years on a grand estate in Palm Island, Florida, with his wife, Mae, by his side and grandchildren running around the property. It sounds like a pretty nice end for the notorious Chicago gangster, until you realize that he spent those post Alcatraz years suffering from declining health, dementia and the long-term effects of a syphilis infection from when he was just a teenager that went untreated. Also? He was

This image released by Vertical Entertainment shows Linda Cardellini, left, and Tom Hardy in a scene from "Capone."

likely broke. Then he died of a heart attack on January 25, 1947. He was only 48.

It's this chapter that gets the focus in "Capone," a hallucinatory and messy (in all respects) film starring Tom Hardy as the once great crime boss who is now hardly recognizable to himself or his family and in a state of rapid decline. With ashen skin, blood-red eyes and a voice that is so raspy as to be almost unintelligible, Hardy's Capone looks like a drawing of a comic book gangster that's gone too far.

"Fonse" (the name Al is not to be uttered on the property) totters around his well-groomed and cliché Floridian mansion in an open robe with a cigar (and, later, a carrot) hanging out of his mouth. When he's not shouting at his wife (Linda Cardellini) or gardeners, he can often be found with a thousand-yard stare which either means he's about to go into a flashback sequence or is soiling himself — he does both quite frequently. His decay is cartoonish, as though all of his past sins are oozing out of his brain and body. They

are laid out just as chaotically and unpleasantly in "Capone" for audiences to make sense of.

"Capone" is the work of filmmaker Josh Trank, who, you may recall, is the blockbuster wunderkind who became a bit of a pariah in under four years. His film "Chronicle" made him, at 27, a precious box office superstar who earned comparisons to Spielberg and Cameron. But his decline started before he could make good on the assumption that he was the next big thing. He was then hired, and fired, from a Star

Wars film. But perhaps his most infamous moment was when he distanced himself from his expensive "Fantastic Four" reboot a day before it opened (and bombed) with a tweet implying that studio interference ruined his once great film.

Although we'll never get to see what he might have done left to his own devices with "Fantastic Four," for better or worse "Capone" is fully a Josh Trank product. He wrote, edited and directed. And although "Capone" has interesting elements and a strong style, it is also deeply flawed and a bit of a slog to get through. Hardy's go-for-broke performance is certainly jaw-dropping, but not exactly effective in drawing you in to care about his story or his regrets. There are threads that are introduced with little resolve: The possible \$10 million that he's hidden and lost, the FBI agent (a compelling Jack Lowden) who has to convince his own boss that Capone is worth continuing to investigate, and the out-of-wedlock son who keeps calling and appearing to him. The supporting cast is wasted (it's not just Cardellini). Matt Dillon pops up for a bit. And Kyle MacLachlan plays the physician who suggests the family give him a carrot instead of a cigar, since he won't notice anyway. It's also numbingly violent. □

Ex-lovers of Johnny Depp come to his defense in libel case

This combination photo shows French model-actress and singer Vanessa Paradis, left, and actress Winona Ryder, two former romantic partners of actor Johnny Depp who have defended him as part of his libel suit against British newspaper The Sun.

Associated Press

LONDON (AP) — Two former romantic partners of actor Johnny Depp came to his defense Wednesday

in his libel suit against British newspaper The Sun, dismissing claims that he was violent or abusive. Actresses Vanessa Paradis and Winona Ryder offered supportive statements for the "Pirates of the Caribbean" star, who is suing the tabloid paper's publisher, News Group Newspapers, over an April 2018 article which referred to the 56-year-old Depp as a "wife-beater." The article contained allegations by Depp's ex-wife, Amber Heard, who filed for divorce after requesting a domestic violence

restraining order. Depp has strenuously denied the allegations. In a hearing conducted remotely, lawyers for Depp argued that statements from Ryder and Paradis should be included as evidence in the actor's case against the publisher. "We've been partners for 14 years and we raised our two children together," Paradis said, court documents show. "Through all these years, I've known Johnny to be a kind, attentive, generous, and non-violent person and father." □

Philip's Animal Garden welcomes you again

NOORD — Looking into something to do with the family this weekend? Let's hop to an amazing place. Something different, an experience that is to be enjoyed by people of all ages. Welcome to Philip's Animal Garden, open again for visitors from Friday May 15th, yet taking care of all the needed precautions.

We are not talking about a zoo here, this is actually a sanctuary for all types of creatures, from horses to peacocks, kangaroos to turtles, monkeys, goats, and many, many more different species. The place

was founded in 2009 and it is the only organization rescuing and rehabilitating exotic animals in Aruba, which has resulted in an amazing collection of these animals. They provide a suitable living environment for all the rescued animals. Up until now the owner, Philip, has built this shelter with his own efforts; building all the cages from scratch, designing all structures and welding them with his own bare hands. His goal is to upgrade the facilities to a world-class animal shelter with veterinary care and round-the-clock staffs. With the input from the Aru-

ban community and visitors they provide the best care for these animals.

Starting Friday May 15th, Philip's Animal garden will

be open from 9am to 6pm respecting the social distance rule and no groups allowed.

Minister Marisol Lopez - Tromp: “Now is the time to choose for nature conservation and not for its destruction”

ORANJESTAD — Over the years, natural / protected areas suffered damage caused by different factors, amongst others, from the ATV / UTV vehicles. During a press conference held on May 6th 2020, Minister Marisol Lopez - Tromp, announced that the Ministry of Spatial Development, Infrastructure and Environment is working on ways of improving this situation.

The two primary aspects that Lopez-Tromp, the Minister of Spatial Development, Infrastructure and Environment, will be focusing on are: (1) Protection of Aruba's Natural areas, (2) but also the process of vehicle inspection which is carried out by the Department for Technical Inspections (DTI). Remarkable is that Aruba is among the few countries that allow driving of ATV / UTV vehicles on highways. Considering this aspect, the safety of these vehicles (for drivers and general traffic) is a concern, as stated by Minister Lopez - Tromp.

The ATV / UTV Vehicle inspection process

As mentioned above, DTI is the government department that is in charge of vehicle inspection, including ATV / UTV vehicles. Currently a relatively small group of ATV / UTV has attended and

fulfilled a vehicle inspection. The procedure involves: control for valid insurance, control for number plate payment and the overall condition of the vehicle. These factors determine if the vehicle (in this case the ATV/ UTV), will successfully complete the inspection.

To conclude, Minister Lopez - Tromp indicated that very soon the Aruban community will see more information from the Ministry on this matter. The focus will be on protecting natural areas, from the damage caused by such activities in the future. In addition, achieving a higher amount of ATV/ UTV vehicles to complete the vehicle inspection at DTI. ☐
